Subject: Deschutes

---

Hi Dave,

I just finished up a summary of the main issues on the Deschutes that we can discuss at next Friday's meeting. Other than those issues, I think I should be able to make edits to the decision memo based on the rest of the feedback, and have a cleaner version ready by early next week. Since OGC would like to get a head start on reviewing the document, I'm comfortable sharing it with them at that point. Once you've had a chance to look at these issues, let me know if you think that would be ok, or if we should hold off until after our discussion on Friday.

Thanks, and hope you have a great weekend!

Miranda Hodgkiss

Internal – Draft Deliberative

**Deschutes Decision Memo – R10 Program/ORC Discussion**  
**April 27, 2018**

Major changes which have been made or will be made, based on feedback received:

1. Adding in explicit citations from the regulations where we are disapproving.
2. Adding in more description in the introduction of Ecology's phase approach, to explain why study area is larger than submittal.
3. Separating out Deschutes-specific language from section on CWA requirements.
4. Re-organization to make our review of each pollutant tie into overall list of CWA requirements (i.e. combining and separating out certain sections to make them consistent).

Outstanding issues/questions:

9. *Document Organization*

There was a suggestion to add the 'Summary of Action' section at the end of each pollutant section. Right now, the summary for all pollutants is grouped at the end. Thoughts?
